# Turnfurlong Traffic Special

## Time for Action on parking

Turnfurlong, Conway Close, Fairmile & Ash Close residents will be all too aware of the parking chaos that they have to endure every day. The attraction of free parking a short walk from town and the schools students parking, busses, and by other passing traffic mean that the congestion isn't simply annoying but downright dangerous.

We are petitioning Tory Bucks County Council finally to make this road safe, so that residents, commuters and school students can travel in safety along it, and so the emergency services can use this road.

We are not prescribing what needs to be done, but we want a good workable scheme, if you would like to sign the petition, but we've not managed to catch you in, please complete the petition below and return to our freepost address.

Turnfurlong has long suffered from the blight of unrestricted parking.

Having 3 schools with 6<sup>th</sup> form and being a short walk from town, the free parking is attractive.

The parking situation is a frequent inconvenience to local residents, is often dangerous, and could delay the emergency services.

Buckinghamshire County Council have been aware of the problem for many years but have done nothing, we the undersigned call upon them finally to come up with a plan to alleviate this situation. Please return to our Freepost address over the page
